To: Hunter Joseph, Director of Human Resources

Dear Hunter Joseph,

I am a junior at Ocean Bay University majoring in computer science with a minor in mathematics. I am interested in the summer internship opportunities you have posted for college students for the summer of 2022. Specifically, I would like to be considered for the Junior Developer position.

I have strong development skills in C++, Java, JavaScript, and others. I recently completed a computer science project where I worked on a team using the agile method of development. We built a card game that used classes to represent card suits. I also completed courses in agile development methodology, programming I and II, and several advanced mathematics courses. I have a 3.8 GPA.

I am available to work from May 9, 2022 - August 12, 2022. I am a curious person who is eager to work with other developers and broaden my skill set. I think I would be an immediate asset to ABC Technologies. I look forward to speaking with you soon about my joining the development team at ABC Technologies.

Regards,

Finley Silva
